**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

1. Claims 15, and 28-39 are pending in the application.
2. Applicants' amendments, filed 12/15/03, have overcome the 35 USC 102(b) rejection issued in the office action dated 8/13/03. However, the following new rejections have been issued for the present claims.

#### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 28 is rejected under 35 U.S.C. 102(b) as being anticipated by Kotowski et al. {PL 157499; abstract only}.

Kotowski et al. disclose the presently claimed catalyst which is composed of an alkali metal type catalyst and a catalyst containing copper simultaneously manganese (see abstract).

#### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 29, 30, 32-35 and 37-39 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to

reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The recited subject matter, "other than an alkaline metal alkoxide", in claims 29, 30, 32-35 and 39 is not supported by the specification or the original claims.

***Allowable Subject Matter***

The following is a statement of reasons for the indication of allowable subject matter: Claims 15, 31, and 36 are unobvious over the prior art of record because the prior art of record does not teach or suggest producing methanol by a synthesis gas reaction of an alcohol in the presence of an alkali or alkaline earth metal-type catalyst and a catalyst containing Copper simultaneously with Manganese or Rhenium.

***Response to Arguments***

Applicants' arguments, filed 12/15/03, have been considered but are moot in view of the new ground(s) of rejection.
